

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments.

What's more, the additional noise from 100+ cell phones ringing, and 100+ cell phone conversations, will have a detrimental effect. The overcrowded conditions and travel tension already has nerves on edge; introducing the additional noise of cell phone ring tones and conversations will create even more tension and discomfort for all passengers.

Please leave the current rules in effect.

Sincerely,

Karen Bitter
